CAMPUS ACADEMIC LIFE IS FRAGMENTED, AND JUNIORS STAY SILENT

ONE PLATFORM SOLVES ARCHIVE, AI, SAFETY, AND SCHEDULE

SCATTERED MATERIAL → CENTRALIZED ARCHIVE

Notes, past year questions, and lab manuals are scattered across WhatsApp groups and personal Drives, without syllabus-level indexing. Repository filters by subject, semester, and module; peer and faculty submissions are verified.

SILENT JUNIORS → SAFE MENTORSHIP

Fear of judgment keeps juniors from seniors for academic, project, and career guidance. Freshers ask anonymously; senior mentors may reveal identity voluntarily.

SEPARATE CIRCULARS → UNIFIED PLANNING

Separate circulars split notifications, revision timelines, and timetables, making prep last-minute. Trackers, exam countdowns, and workshop registrations unify schedules; Google Gemini parses syllabi, extracts high-yield concepts, and generates viva questions.

BUDDY WORKS LETS FRESHERS ASK WITHOUT FEAR

Start with an alias. Build trust through a conversation.

01

ASK ANONYMOUSLY

Fresher_101

Broadcast doubts under a system alias, without exposing real identity on the public board.

02

TALK IN REAL TIME

Senior-junior channels support course guidance and project conversations.

03

REVEAL BY CHOICE

Once trust exists, seniors can show verified identity, degree track, and profile voluntarily.

CAREER OPPORTUNITIES

Internship and hackathon listings, with AI resume pointers.

Made with GAMMA

SECURITY AND PRIVACY ARE BUILT INTO THE DATA LAYER

ROW LEVEL SECURITY

Writes are limited to verified content owners.

SECRET KEY ISOLATION

Admin keys stay in serverless environments; only scoped publishable keys reach the client.

ANONYMITY ENFORCEMENT

Alias mapping separates real identity from public boards and chats.

GUARDRAILED AI

System instructions keep Gemini educational and limit hallucinated technical data.

ROADMAP: FROM ONE CAMPUS TO A NETWORK OF CAMPUSES

COLLEGE DOMAIN AUTHENTICATION

Institutional SSO restricted to verified campus emails.

PWA

Offline document caching and push notifications for timetable and event alerts.

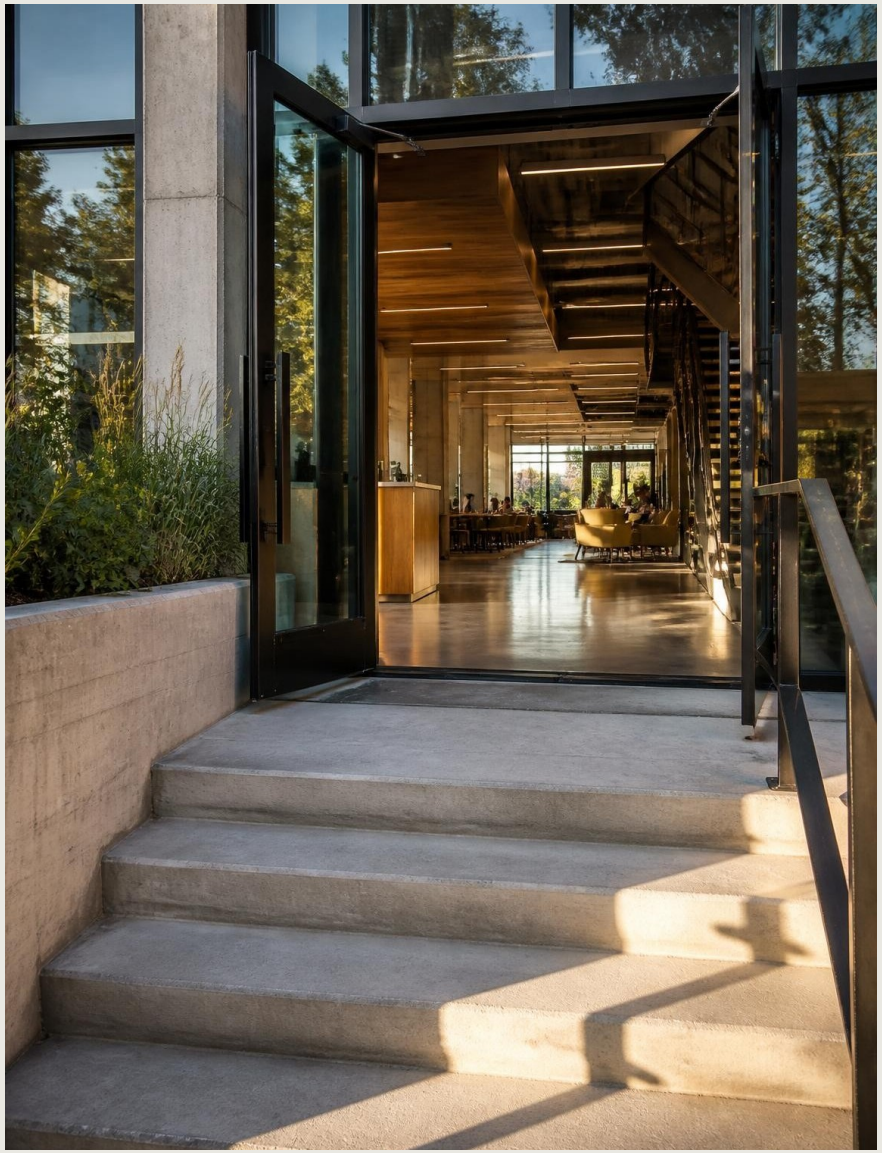

MULTI-CAMPUS EXPANSION

Cross-college hubs for joint hackathon teaming and resource syndication.

ADMINISTRATIVE PORTAL

Faculty interface for syllabus revisions, attendance minimums, and internal marks.
